---

Hi Everyone,

The IT department has developed a new TAS specific App to handle the TAS phone list in a more efficient and secure manner. Please see below. You can download the app from the app store or Google play for you android users (links below). You can then log in using your TASL user name and password and select a unique 4 digit code for yourself. You will then have access to the complete TAS company phone list on your smartphone and the ability to directly dial any employees cell phone from the app.

We will also be modifying the list to include special notifications and lists for BERT members in the event of ERP activation etc.

Please let IT know if you have any issues loading and using the app.

The spreadsheet phone list will be discontinued. You will need to ensure that your contact details are updated in the list should you change your number.

Well done IT, nice app.

Cheers
