Subject: S-76D IGB Pulley Washer Installation

Grant

Regarding the two washers noted on same side of the pulleys on the IGB pulley installation on HVF, TR Cable installation Drawing 76400-23190 Note 15 provides the following guidance:

For both left and right pulleys, the two indicated washers (P/N NAS1149D0563K) may be positioned as shown (one on each side of the pulley) or both may be positioned on the same side of each pulley, inboard or outboard. This provision is to improve lateral cable location relative to the airframe clearance holes at STA 457, 470 and 477. Two washers must always be used at each pulley.

I will raise a SoundOff to have this Note added to the AMM.
