**Subject:** Use of P/N NAS42DD6-13FC spacer in lieu of P/N NAS42DD6-13

Grant;

It has come to my attention that SCI has furnished spacer P/N NAS42DD6-13FC in lieu of P/N NAS42DD6-13 as called out in the S-92 AMM.

The FTR response below addresses this known issue and confirms that the -13FC is a valid P/N where the AMM calls out -13.

Log Number: 56004  
FTR Number: 09612T041  
Aircraft Model: S-92A  
Part ID: NAS42DD6-13 SPACER  
ATA: 67  
Ref Docs: SA S92A-AMM-000 Chap 67-20-02 p406  
FTR Subject: Alternate Spacer Part Number

### **Problem Description:**

Customer scheduled replacement of both spring capsules P/N 70400-06660-048. Part of the re-assembly of the upper clevis requires the use of 4 spacers P/N NAS42DD6-13 (Chapter 67-23-02 Page 406 Figure 401 Item 60).

Customer's logistics chain advised they are unable to supply NAS42DD6-13 however they are able to supply NAS42DD6-13FC.

It is believed that "FC" notates the spacer has a "Finishing Coat".

Please advise if it is acceptable to install NAS42DD6-13FC in lieu of NAS42DD6-13.

### **Problem Resolution:**

Per NAS42 Standard, the only new spacers that were allowed for new design after March 1987 were with finish code "N" & "FC"

NAS42DD6-13FC is 2024-T aluminum spacer with chemical film coating and may be used in lieu of NAS42DD6-13.
